The Greater Kansas City Chapter of Coalition of Black Trade Unionists will host a

*“Common Sense Economics”*

**Mass Incarceration Training**

on Saturday, August 8, 2015, starting at 10:00 AM. This training session will be held at the UAW Local #249 union hall, 8040 NE 69 Hwy, Pleasant Valley, MO 64068.

The AFL-CIO Midwest Gold Team members will facilitate this free training session, which is a three (3) hours session.

*\*\*Common Sense Economics (CSE)* is a flexible organizing tool built in the shape of a curriculum for mass education. **CSE** is intended to be shared, modified and flexible. It's designed for all workers (union or nonunion) to understand why this economy is not working for working people and that the economy is not inevitable, but is shaped by policy. The tool's main goal is to immediately connect people to action and put workers in the driver's seat to start changing the direction of this economy.\*\*

If time allow, there may be a discussion on RTW (Right To Work) for the upcoming Missouri VETO session.

Respectfully,

Neal Byers, President  
Greater Kansas City Chapter of C.B.T.U.
